

This is only a summary. If you want more detail about dental coverage and costs under this plan, you can get the complete terms in the policy or plan document at Delta Dental of Washington Exchange Plans at <https://www.deltadentalwa.com/our-plans/wahbe> or by calling 1-888-899-3734.

Important Questions	Answers	Why this Matters
What is the premium amount?	\$60.09 Per child, for the first 3 children. Additional children may be enrolled without additional premium.	The premium amount is a monthly fee you must pay to your insurance company to receive dental insurance.
What is the overall deductible?	\$85	You must pay all the costs related to covered services up to the deductible amount before this plan begins to pay for covered services you use. Check your policy or plan document to see when the deductible period starts (usually, but not always, January 1st). See the chart starting on page 2 for how much you pay for covered services after you meet the deductible.
Does the deductible apply to preventive services?	No	The deductible does not apply to preventive exams, cleanings, or other preventive services. See the chart starting on page 2 for how much you pay for covered preventive services.
What is the out-of-pocket limit on my expenses?	\$450 for 1 child \$900 for 2+ children	The out-of-pocket limit is the most you could pay during the coverage year for your share of the cost of covered services. This limit helps you plan for dental care expenses.
What is not included in the out-of-pocket limit?	Premiums, non-covered services, and out-of-network services.	Even though you pay these expenses, they don't count toward the out-of-pocket limit. Only fees paid to a Delta Dental PPO plus Premier Dentists accrue to the annual Out-Of-Pocket Maximum.
Is there an overall annual limit on what the plan pays?	No	There is no overall annual limit on what the plan will pay for children. The chart starting on page 2 describes any limits on what the plan will pay for adult coverage and other <i>specific</i> covered services for children.
Who is included in this plan's network of providers?	See Dentist Search or call 1-888-899-3734 for a list of participating providers.	If you use an in-network provider, this plan will pay some or all of the cost of the covered services. Be aware, your in-network dentist may use an out-of-pocket provider (e.g., a hospital) for some services. Plans use the term in-network, preferred, or participating for providers in their networks. See chart starting on page 2 for how this plan pays different kinds of providers.
Do I need a referral to see a specialist?	No	You can see the specialist you choose without permission from this plan.

¹ Delta Dental of Washington has no control over the charges or billing practices of dentists who do not contract with us. Our payments for services performed by these dentists will be based on actual charges or Delta Dental of Washington's maximum allowable fee for a non-participating provider.

Do I need preauthorization before receiving certain dental services?	Yes	You do need to call the plan at: 1-888-899-3734 before receiving certain dental services. See your policy or plan document for additional information.
Are there services this plan doesn't cover?	Yes	Some of the services this plan doesn't cover are listed starting on page 4. See your policy or plan document for additional information about excluded services.

- Copayments are fixed dollar amounts (for example, \$15) you pay for covered dental care, usually at the time of the service.
- Coinsurance, which is different from copayments, is *your* share of the costs of a covered service, calculated as a percent of the allowed amount for the service. For example, if the plan's allowed amount for a restorative procedure (e.g., a crown) is \$1,000, your coinsurance payment of 20% would be \$200. This may change if you haven't met your deductible.
- The amount the plan pays for covered services is based on the allowed amount. If an out-of-network provider charges more than the allowed amount, you may have to pay the difference. For example, if an out-of-network dentist charges \$1,500 for a crown and the allowed amount is \$1,000, you may have to pay the \$500 difference. (This is called balance billing.)
- This plan may encourage you to use in-network providers by charging you lower deductibles, copayments and coinsurance amounts.

 All [copayment](#) and [coinsurance](#) costs shown in this chart are after your [deductible](#) has been met, if a [deductible](#) applies.

Dental Treatment	Services You May Need	What you will pay if you use:		Limitations, Exceptions & Other Important Information
		In-Network Provider	¹ Out-of-Network Provider	
Routine Check-up	Oral Exams	0%	0%	Two Times per benefit period
